General

Note:
Used to mount 66mm fiber optic ring lights to the filter holders of all objectives except CF-4 #52-829

Type:
Lens Accessory

Regulatory Compliance

RoHS 2015:
Compliant

Reach 224:	**Compliant**
Certificate of Conformance:	**View**

Product Details

- Multiple Configurations for Video/Photo/Visual Applications
- 3X Greater Magnification than Other Coaxial In-line Systems
- Highest Possible Long-Distance Resolution
- Focus from Infinity to 54mm
- Supplementary Focuser Available for CentriTel™ Capabilities

Infinity K2/DistaMax™ Long Distance Video Microscopes, recognized as the standard in long-distance microscopes, now incorporate a patent-pending IVS focus system, further improving what was already a top performer. The IVS focus system makes the K2 DistaMax™ easier to use than previous models. To begin using the K2 DistaMax™, simply choose an objective for the front and a camera mount for the rear.
Infinity K2-DistaMax™ Long Distance Video Microscopes offer high magnifications and a dynamic working distance range, covering all sensors up to 35mm (43mm diagonal) formats.

The K2 DistaMax™ Single-Port package includes a manual iris for light level and depth of field control. The Dual-Port package includes a right angle mirror for switching between views (not simultaneous viewing), in addition to the parts included in the Single-Port package. The K2 DistaMax™ is ideal for applications ranging from remote vacuum chamber viewing to on-line process control.

The NWE Objective allows focus from infinity to as near as 675mm. Perhaps the most versatile K2 DistaMax™ objective, the NWE also can be used with the Microscope Objective Adapter Disc and other accessories. All objectives attach directly to a front dovetail. When combined with NWE Objective, Microscope Objective Adapter Disc, and Objective Adapter, the K2 DistaMax™ can interface common infinity-corrected microscope objectives, even when the Coaxial In-line Illuminator is used, making it a powerful direct coaxial in-line system. To enable CentriTel® for all formats simply add the CentriTel® Focuser, **#87-430**. For viewing through an eyepiece (not included), adapter **#58-796** is required.

Technical Information

Description			Stock No.
Main Body	One Required	Video Lens - K2 Single Port	#87-426
		Video Lens - K2 Dual Port	#87-427
Mount Adapter	One Required	C-Mount Camera Adapter	#88-956
		Nikon F-Mount Camera Adapter	#42-835
		62mm Eyepiece Tube (for viewing)	#58-796
Amplifiers	Optional	CF Tube (1.66x)	#65-041
		DL Doubler Tube (2X Video)	#39-686
		Lockable Doubler Tube (2X Video)	#57-714
		NTX Tube 2X (Large Format)	#86-892
Components	Optional	Centritel™ Focuser	#87-430
		Mounting Bar	#86-888
Objective/ Objective Adapter	One Required	**Near-Wide-Extreme Range**	
		K2 Objective NWE	#87-428
		Standard Range	
		K2 Objective STD	#39-339
		Close-Focus Range	
		K2 Objective CF-1	#39-340
		K2 Objective CF-1/B	#57-721
		K2 Objective CF-2	#39-341
		K2 Objective CF-3	#39-342
		K2 Objective CF-4	#52-829
		High-Power Micro Range	
		K2 Microscope Adapter Disc	#87-429
		Mitutoyo/Achrovid Objective Adapter (M26)	#53-787
		Nikon CF160 Objective Adapter (M25)	#54-589
		Olympus UIS Objective Adapter (RMS)	#53-786
