Safely Clean Sensitive Gold Coatings

Applies as a Liquid and Easily Peels Away Debris

Kit Contains Everything Needed for Application and Removal

First Contact™ **Black, Plastic, Water Resistant,** and **Red** Also Available

Gold Formula First Contact™ Cleaning Solution Kit provides everything required to safely clean gold coatings, which can exhibit low adhesion and require more sensitive cleaning. The cleaning solution is easily applied as a liquid, immediately conforming to any contour, and dries into an easily peelable film. When removed, this film gently and thoroughly removes contaminants and grease down to a molecular level, without damage to coatings. Gold Formula First Contact™ Cleaning Solution Kit contains enough polymer to clean up to 280 square inches (approx. 1800cm²) of surface area.
