- Direct to Video C-Mount for 2/3" and Smaller Sensor Cameras
- Internal Focusing

Note: Standard system for 2/3" sensors still available.

The diagram illustrates the modular components of the InVuTube™ FM-Series. At the top center is the #99-686 DL Doubler Tube (2X). Below it are three main body models: #57-788 C-Clamp w/ 1/4" = 20 Mounting Hole, #58-309 InVuTube™ FM-100, and #58-310 InVuTube™ FM-200. To the right of the FM-200 is another #57-788 C-Clamp w/ 1/4" Mounting Hole. Below the FM-100 is the #58-313 InVuTube™ In-Line Attachment Optimized for 2X to 16X Objectives. Below the FM-200 is the #58-312 InVuTube™ In-Line Attachment Optimized for 10X and higher Objectives. A central dashed red box contains two sets of objective adapters: #59-115 PL/FD-195mm WD/0.25X, #59-116 PL/FD-295mm WD/0.165X, #59-117 PL/FD-390mm WD/0.125X, and #58-316 Mitutoyo/Achrovid™ Objective Adapter (M26). To the left of this box are four PL-objective lenses: #55-402 PL-18mm WD/2.00X, #55-403 PL-44mm WD/1.00X, #55-404 PL-94mm WD/0.66X, and #55-405 PL-94mm WD/0.50X. To the right of the central box are two more adapter types: #59-472 Collector II-HM and #58-314 Olympus UIS Objective Adapter (RMS), followed by #58-315 Nikon CF 60 Objective Adapter (M25) and #58-949 Mitutoyo/Achrovid™ Objective Adapter (M26) for 2X objectives.

Note:
The PL-Series Objectives are specifically designed to be used directly (no adapters required) with the InVuTube™ FM-Series Main Bodies

All PL-Series Objectives are amplified by 2X (InVuTube™ FM-100) or 4X (InVuTube™ FM-200) their engraved initial power ratings.

A DL 2X Tube can be used atop InVuTube™ FM-Series Main Bodies to further amplify magnification by a 2X factor.

System Includes	Stock No.
InfiniTube In-Line Assembly Unit	#58-311
Hitachi KP-D20B Camera	#55-837
15.1" Diagonal LCD Monitor (US version only)	#56-522
