### General

OEM **Type:**

**Compatible Laser Models:**  
[1135, 1135P](#)

**Note:**  
Advanced power supplies include an active filter to reduce current ripple and noise. Additional heat sinking is not required.

L23 Series **Model Number:**

Compatible Laser Stock Number:  
#62-726, #62-727

## Physical & Mechanical Properties

4.25 x 3.30 x 1.20      Dimensions (inches):

## Electrical

2.5-25      Output Power (W):

7.5 (Max. Current Draw)      Input Current (A):

## Hardware & Interface Connectivity

3100      Output Voltage (V):

6.5      Output Current (mA):

High Voltage Alden Connector      Connector:

10-14 DC      Input Voltage (V):

## Regulatory Compliance

[View](#)      Certificate of Conformance:

## Product Details

- Power Options from 0.5 - 22.5mW
- Improved Stability
- Ideal for Interferometry and Metrology Applications
- Random or Linear Polarization Options

Lumentum High Performance Helium-Neon Lasers feature a patented close-cathode design that provides improved thermal and power stability. They also utilize a patented field concentrator design that enables fast turn-on. These Lumentum HeNe lasers also feature precisely aligned cylindrical housings, with cylindrical laser heads and electrical interconnect systems used to simplify system integration. Lumentum High Performance Helium-Neon Lasers' rugged design is ideal for even the most demanding applications. They are exemplary for use within interferometry and metrology applications.

**Note:** Please exercise caution when using a user-provided power supply to not exceed the electrical specifications of the laser as this may cause damage and void the warranty. These HeNe lasers comply with 21CFR1040 and IEC 825-1:1993. Lumentum was previously known as JDSU.
