General

OEM **Type:**

Compatible Laser Models:
[1103, 1103P](#)

Note:
Advanced power supplies include an active filter to reduce current ripple and noise. Additional heat sinking is not required.

L23 Series **Model Number:**

Compatible Laser Stock Number:
#64-103, #64-104

Physical & Mechanical Properties

4.25 x 3.30 x 1.20 **Dimensions (inches):**

Electrical

2.5-25 **Output Power (W):**

3 (Max. Current Draw) **Input Current (A):**

Hardware & Interface Connectivity

1700 **Output Voltage (V):**

4.9 **Output Current (mA):**

High Voltage Alden Connector **Connector:**

10-14 DC **Input Voltage (V):**

Regulatory Compliance

[View](#) **Certificate of Conformance:**

Product Details

- Power Options from 0.5 - 22.5mW
- Improved Stability
- Ideal for Interferometry and Metrology Applications
- Random or Linear Polarization Options

Lumentum High Performance Helium-Neon Lasers feature a patented close-cathode design that provides improved thermal and power stability. They also utilize a patented field concentrator design that enables fast turn-on. These Lumentum HeNe lasers also feature precisely aligned cylindrical housings, with cylindrical laser heads and electrical interconnect systems used to simplify system integration. Lumentum High Performance Helium-Neon Lasers' rugged design is ideal for even the most demanding applications. They are exemplary for use within interferometry and metrology applications.

Note: Please exercise caution when using a user-provided power supply to not exceed the electrical specifications of the laser as this may cause damage and void the warranty. These HeNe lasers comply with 21CFR1040 and IEC 825-1:1993. Lumentum was previously known as JDSU.
