PRODUCT DETAILS

- Ideal For Use During Wet Polishing and Dicing Applications
- Colorless Film Doubles as a Way to Protect Optics from Moisture
- Applies as a Liquid and Easily Peels Away Debris
- Kits Contain Everything Needed for Application and Removal
- First Contact™ [Black](#), [Gold](#), [Plastic](#), and [Red](#) Also Available

Water Resistant First Contact™ Cleaning Solution Kit provides everything required to safely clean a range of optical surfaces to the molecular level. Once applied, the cleaning solution immediately conforms to any contour and dries to a colorless, immersion-resistant film which can be easily peeled away to remove contaminants and grease with no residue, but which can also be left in place to protect optical surfaces during processing, shipping or storage. Water Resistant First Contact™ Solution has been tested to withstand up to 24 hours of water immersion at room temperature after application, while maintaining the ability of other First Contact solutions to thoroughly clean optics to the molecular level upon removal. Water Resistant First Contact™ Cleaning Solution Kit contains enough polymer to cover 280 square inches (approx. 1800 cm2) of surface area.

The AI-Inclusive Kit contains everything needed for application and removal, and includes:

- 1 x 15ml Water Resistant First Contact Polymer Applicator Bottle
- 2 x 29ml Water Resistant First Contact Polymer Refill Bottles
- 1 x 29ml Water Resistant First Contact Thinner (for brush cleaning)
- 1 x Fan Brush
- 1 x Chemically Inert Mesh (5 - 3" x 3" sheets)
- 1 x 12m Unwaxed Dental Floss
- 1 x Pipette Kit (5 pipettes)
- 25 Peel Tabs
